MedOne Neurosurgery: Questions and Answers (Q&A)

- **Comprehensive Questions:** Over 8,000 multiple choice questions and answers from several acclaimed review books, including Neurosurgery Primary Board Review by Ross Puffer, presents up-to-date question banks designed to prepare neurosurgeons for the ABNS exams.
- **Enhanced Study Modes:** Choose between review mode and a single-answer practice exam. Personalize sessions to target specific topics and adjust timing and difficulty levels.
- **Customizable Learning Experience:** Users can track individual progress with statistics and options to review based on criteria such as whether a question is new or has been answered incorrectly. Each user's individual MedOne account allows for personalized study.

MedOne Neurosurgery: Procedures

Before heading into surgery, users can review individual techniques. With step-by-step attention to preoperative, operative, and postoperative care, they can focus on every stage of their training. Each procedure includes clickable images and source references, making it easy for them to study and review.

Procedure Subspecialties	
Cranial	Pediatric
Peripheral Nerve	Spine

MedOne Neurosurgery: Cases

Users can work through real patient cases from start to finish, so that they know what to expect in exams or the clinic. They can learn how to treat the patient, analyze the imaging, and see the results, all as they test themselves using the questions included in each case.

Case Subspecialties	
Cerebrovascular	Spine
Functional Neurosurgery	Trauma and Critical Care
Pediatrics	Tumor/Neurooncology
Peripheral Nerve	

MedOne Neurosurgery: Media

Images and videos are at users' fingertips with MedOne's media collection. Prepare for the OR with narrated operative videos, and study a wealth of photographs, illustrations, and radiographic images. Users can easily compare images

and take notes. Plus, one-click downloads any image as a PDF or PPT slide with automatically included bibliographic information that's compatible with reference manager software.

Media Type	Total Count
Videos	2419
Images	150.4k
Audio	21
Cases	225

MedOne Neurosurgery: Playlists

With the playlist feature, users can create customized content sets and collections. Using MedOne's resources, external links, or personal files, users can put together individual collections of information. Playlists can be kept private, shared with others from your institution, or shared with all MedOne users across institutions.

MedOne Neurosurgery: Infographics

In The Infographic Guide to Neurosurgery, the most common disorders and diseases of the brain, spine, and peripheral nerve have been distilled by experts into high-impact visuals that allow you to learn vital information in a snapshot. Featuring 100 peer-reviewed infographics for learning neurosurgery, ideal for neurosurgery residents, APPs, and medical students.
